

TEAMBUILD

debating the future of the construction industry : **make your play!**

INNOVATIVE
LEARNING
WEEK

for COLLABORATION
CHANGE

THE UNIVERSITY of EDINBURGH

WHEN? Wednesday 17th February

Site Visit: 9.00am (Heriot-Watt University Campus)

Lunch and Edge Introduction: Midday, ECA Buildings

Team Brainstorming: 2.00-5.00pm

Exhibition of Ideas and Seminar Panel (open to industry) 5.30pm- 7.30pm

WHAT? inspired by the 2015 'Collaboration for Change' report from the Edge, Teambuild has organised a day of inter-disciplinary future-gazing for UoE's Innovative Learning Week.

Student participants will:

- Visit, and tour, a working site of national importance: Oriam, Scotland's Sports Performance Centre
- Meet with contractors, architects, engineers and other members of the industry to hear about current practice
 - Get a sense of where your role fits into the industry
- Hear from visiting members of Edge on the strategy behind their future vision of collaborative construction
- Work in interdisciplinary teams to produce proposals to make Construction a leading industry for the future.

WHY? As a young professional with ambitions in construction, you want to influence the future of your industry.

Add your voice to the debate on the future of construction!

- FREE event for all students interested in the construction industry
- Open to students from UoE and Heriot-Watt University
- Particularly suitable for Dept of Engineering and ESALA students
- Meet senior members of industry, across all disciplines
- Some high-profile practitioners, representing local firms, and some visiting from London
- Visit an exciting, operational site - Oriam, at HWU (this visit limited to the first 15 places, book now!)
- Great experience for the CV
- **BOOK NOW** via the *Innovative Learning Week website*, or email alex@teambuilduk.com
